NOVA

Pio&TitoToso / 2026

The Nova armchair is a contemporary take on comfort with a versatile, hybrid soul. What begins as a soft, rounded pouffe is transformed by an elegant, structured backrest into a generous and inviting armchair. Customisable fabrics for the seat and backrest offer a varied interplay of texture and colour, ensuring every module is truly unique.

Modularity

The seat's distinctive trapezoidal form invites creative and flexible layouts, adapting effortlessly to any space, to bring people together, whether in a home or commercial setting.

Easy disassembly and removable covers

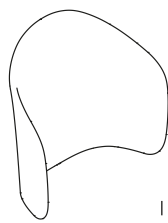

With its thoughtful design and choice of materials, Nova can be fully disassembled, giving it a second life. Any replaced materials can be repurposed for energy recovery, supporting a circular lifecycle. This design approach limits waste and promotes material recycling, significantly reducing its overall environmental footprint. Additionally, the seat and backrest can be ordered with removable covers, offering easy care, and even more ways to customise the look.

Armchair / Pouffe

Nova is a fully upholstered design, available as both an armchair and a pouffe. The seat is padded and fully upholstered, with a removable cover as an option. The seat frame is crafted from plywood, hardboard and solid wood, with soft polyurethane foam and wadding padding. The top of the seat features signature decorative stitching, while adjustable feet guarantee perfect stability on any surface. Crafted from contoured birchwood, the backrest is fully upholstered with integrated foam padding. Optional accessories include a rotating side table, with a sleek, black HPL top, and USB power socket.
